

ESTABLISHED 2000
ALCOHOL FREE HOUSING
 PHI DELTA THETA

In 1997, Phi Delta Theta's General Council announced its alcohol-free housing policy to the world. Chapters were given more than three years to implement this paradigm shift on their campus and all properties were alcohol-free by the implementation date of July 1, 2000.

Since the implementation, Phi Delta Theta has undergone transformational change and has become a noticed leader within the fraternal world. The policy, deemed by many as a factor that could be the end of the organization, has benefited Phi Delta Theta greatly in many ways.

Most importantly, the culture that it has created is attracting values-based men who are placed in safe environments where they can become the greatest version of themselves.

Phi Delta Theta is very proud of the following statistics that have resulted from the positive culture change created through alcohol-free housing.
